## Oilseed meals - Determination of soluble proteins in potassium hydroxide solution

| <b>Contents</b>  |                                  | <b>Page</b> |
|--|----------------------------------|-------------|
| Foreword .....   |                                  | iv          |
| 1  | Scope .....                      | 1           |
| 2  | Normative references .....       | 1           |
| 3  | Principle .....                  | 1           |
| 4  | Reagents .....                   | 1           |
| 5  | Apparatus .....                  | 2           |
| 6  | Sampling .....                   | 2           |
| 7  | Preparation of test sample ..... | 3           |
| 8  | Procedure .....                  | 3           |
| 9  | Expression of results .....      | 3           |
| 10   | Precision .....                  | 4           |
| 10.1   | Interlaboratory test .....       | 4           |
| 10.2   | Repeatability .....              | 4           |
| 10.3   | Reproducibility .....            | 4           |
| 11   | Test report .....                | 4           |
| Annex A (informative) Results of interlaboratory tests ..... |                                  | 5           |
| Bibliography .....   |                                  | 6           |
