

DIN EN ISO 16297:2014-09 (E)

Milk - Bacterial count - Protocol for the evaluation of alternative methods (ISO 16297:2013)

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	Transformation of results	5
5	Attributes of the alternative method	6
5.1	Description of the method to be evaluated	6
5.2	Measuring range	6
5.3	Carry-over	7
5.4	Stability	9
Precision		9
6	The alternative method as an estimate of the reference method	10
6.1	Evaluation of factors affecting the estimation	10
6.2	Measurement protocol	11
6.3	Calculations	11
6.4	Attributes of the alternative method expressed in units of the reference method	14
7	Rating of the elaborated attribut	14
Annex A (informative) Expression of precision parameters		15
Bibliography		17
