Dispense systems for draught beverages - Part 6: Requirements for cleaning and disinfection

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Cleaning and disinfection target	5
5	Cleaning and disinfection intervals	5
6	Cleaning and disinfection procedures	7
6.1	General	7
6.2	Chemical cleaning	7
6.3	Chemical-mechanical cleaning	7
6.4	Disinfection methods	7
7	Requirements for cleaning agents and disinfectants	8
7.1	General	8
7.2	Requirements for mechanical cleaning devices	8
7.3	Requirements for cleaning agents and disinfectants	8
8	Requirements for cleaning equipment	8
9	Cleaning and disinfection procedures	8
10	Documentation of cleaning and disinfection	9
11	Testing	9
11.1	Checking the success of cleaning operations	9
11.2	Determining the need for cleaning	9
11.3	Microbiological testing for specific types of beverage	10
11.3.1	Water coolers	10
11.3.2	Beer	10
Annex A (normative) Microbiological testing to determine cleaning success in accordance with 11.2		11
Annex B (informative) Microbiological testing of filtered beer		12
