

DIN EN ISO 11930:2019-04 (E)

Cosmetics - Microbiology - Evaluation of the antimicrobial protection of a cosmetic product (ISO 11930:2019)

Contents		Page
European foreword		4
Foreword		5
Introduction		6
1	Scope	7
2	Normative references	7
3	Terms and definitions	7
4	Principle	8
5	Preservation efficacy test	9
5.1	General	9
5.2	Materials, apparatus, reagents and culture media	9
5.2.1	General	9
5.2.2	Materials	9
5.2.3	Diluents	9
5.2.4	Neutralizer	10
5.2.5	Culture media	11
5.3	Microbial strains	12
5.4	Preparation and enumeration of inocula	13
5.4.1	General	13
5.4.2	Preparation of bacterial and <i>Candida albicans</i> suspensions	13
5.4.3	Preparation of <i>Aspergillus brasiliensis</i> spore suspension	14
5.5	Demonstration of the neutralizer efficacy	15
5.5.1	Principle	15
5.5.2	Procedure	15
5.5.3	Calculations	15
5.5.4	Interpretation of results and conclusion on neutralizer efficacy	16
5.6	Determination of the preservation efficacy of the formulation	16
5.6.1	Procedure	16
5.6.2	Counting of colonies	17
5.6.3	Calculations	17
5.7	Interpretation of test results and conclusions	18
5.7.1	Criteria	18
5.7.2	General case (efficacy of the neutralizer is demonstrated for all strains)	19
5.7.3	Case of formulations for which the efficacy of the neutralizer is not demonstrated for some strains	19
5.8	Test report	19
6	Overall evaluation of the antimicrobial protection of the cosmetic product	20
6.1	General	20
6.2	Case 1 -- Preservation efficacy test has been performed on the formulation	20
6.3	Case 2 -- Preservation efficacy test has not been performed on the formulation	21
Annex A (normative) Decision diagram		22
Annex B (normative) Evaluation criteria for the preservation efficacy test		23

Annex C (informative) Examples of neutralizers for the antimicrobial activity of preservatives and washing liquids 24

Annex D (informative) Packaging characteristics 26

Bibliography 27
