European foreword 4

Foreword 5

Introduction 6

1 Scope 12

2 Normative references 12

3 Terms and definitions 12

4 General principles of verification of qualitative (detection) methods and quantification methods 16
4.1 General 16
4.2 Implementation verification 16
4.3 (Food) item verification 17
4.4 Requirements for implementation verification and (food) item verification 17
4.5 Performance characteristics 20

5 Qualitative methods -- Technical protocol for verification 20
5.1 Estimated LOD (eLOD) determination50 50 20
5.2 Experimental design 20
5.3 Selection of (food) items 21
5.4 Artificial contamination 21
5.4.1 Selection of strains 21
5.4.2 Inoculation of the test portions 22
5.5 Evaluation of results 24
5.5.1 Determination of eLOD using protocol 150 24
5.5.2 Determination of eLOD using protocol 250 27
5.5.3 Use of protocol 3 28
5.6 Acceptability limits 29
5.7 Root cause analysis 29

6 Quantitative methods -- Technical protocol for verification 30
6.1 Intralaboratory reproducibility standard deviation determination 30
6.1.1 General 30
6.1.2 Experimental design 30
6.1.3 Selection of the (food) item 32
6.1.4 Natural contamination 32
6.1.5 Artificial contamination 32
6.1.6 Evaluation of results 33
6.1.7 Acceptability limit 34
6.1.8 Root cause analysis 35
6.2 Estimated bias (eBias) determination 36
6.2.1 General 36
6.2.2 Experimental design 36
6.2.3 Selection of (food) items 36
6.2.4 Artificial contamination 36

6.2.5 Evaluation of results 38
6.2.6 Acceptability limit 38
6.2.7 Root cause analysis 39

7 Validated alternative confirmation and typing methods -- Technical protocol for verification 39
7.1 General 39
7.2 Implementation verification 39
7.3 Experimental design 39
7.3.1 General 39
7.3.2 Strain selection 40
7.4 Evaluation of results 40
7.5 Acceptability limit 41
7.6 Root cause analysis 41

8 Summary of acceptability limits for the verification of validated methods 41

Annex A (informative) Classification of (food) categories and suggested target combinations for verification studies 42

Annex B (informative) Guidance on how to choose challenging (food) item(s) for (food) item verification 56

Annex C (informative) Qualitative method verification -- Example 58

Annex D (informative) Quantitative method verification -- Example 66

Annex E (informative) Validated alternative confirmation or typing method verification -- Examples 71

Annex F (normative) Protocol for the verification of non-validated reference methods in a single laboratory 74
