DIN 10479-1:2022-02 (E)

Butyrometric determination of fat content of milk and milk products - Part 1: General guidance on the use of butyrometric methods and technical delivery specifications for amylalcohol

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Existing standardized acid-butyrometric methods 5

5 Principle 5

6 Reagents 5

7 Apparatus 6

8 Sampling 7

9 Sample preparation 7

10 Procedure 7

11 Handling the butyrometer 8

12 Validation of a butyrometric method using the appropriate reference method 8

Annex A (normative) Technical delivery conditions for amyl alcohol 10

A.1 General 10
A.2 Requirements 10
A.2.1 Composition 10
A.2.2 Appearance 10
A.2.3 Density 10
A.2.4 Furfuraldehyde and other organic impurities 10
A.2.5 Boiling range 10
A.2.6 Suitability test 10
A.3 Designation 11
A.4 Bottling, dispatch and marking 11
A.5 Complaints 11
