DIN EN ISO 18861:2022-02 (E)

Cosmetics - Sun protection test methods - Percentage of water resistance (ISO 18861:2020)

Contents

Page

European foreword ... **3**

Foreword ... **4**

Introduction ... **5**

1 Scope ... **6**

2 Normative references ... **6**

3 Terms and definitions ... **6**

4 Test method ... **7**
4.1 Outline of the method ... 7
4.2 Test subject selection ... 7
4.3 Test area ... 7
4.4 Product application ... 7
4.5 Water immersion procedure ... 7
4.6 Reference water resistant sun product ... 8
4.7 Determination of the minimum erythemal dose (MED) ... 8
4.8 Number of test subjects ... 8
4.9 Test chronology ... 8

5 Calculations and data handling ... **8**
5.1 General ... 8
5.2 SPF before immersion ... 8
5.3 SPF after immersion ... 9
5.4 Individual percentage of water resistance ... 9
5.5 Mean percentage of water resistance ... 9
5.6 Calculation of lower confidence limit on the mean percentage of water resistance ... 9
5.7 Acceptance criteria for reference product P2 ... 10

6 Test report ... **10**

Annex A (normative) **Simulated swim test device design** ... **11**

Annex B (normative) **Test procedure and chronology** ... **12**

Annex C (normative) **Standard reference sunscreen** ... **15**

Bibliography ... **16**
