ISO 17468:2023-11 (E)

Microbiology of the food chain - Technical requirements and guidance on the establishment or revision of a standardized reference method

Contents

Page

Foreword iv

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Technical procedure for standardizing a new reference method 3
4.1 General 3
4.2 Technical steps 3
4.2.1 Step 1: Method(s) selection (mandatory) 3
4.2.2 Step 2: Method(s) optimization (optional) 4
4.2.3 Step 3: Method(s) evaluation study (recommended) 4
4.2.4 Step 4: "Real life" study (recommended) 5
4.2.5 Step 5: Selection of one candidate reference method for further validation (mandatory) 5
4.2.6 Step 6: Interlaboratory study (mandatory) 5

5 Technical procedure for revising a standardized reference method 7

Annex A (informative) Flow chart on technical steps for the establishment or revision of a standardized reference method 9

Annex B (informative) Guidance on optimization studies to compare two options in the development of a new standardized reference method or for its revision 10
