## Microbiology of the food chain - Technical requirements and guidance on the establishment or revision of a standardized reference method

---

| <b>Contents</b>  |  | <b>Page</b> |
|--|--|-------------|
| <b>Foreword</b> .....  |  | <b>iv</b>   |
| <b>1</b>   | <b>Scope</b> .....   | <b>1</b>    |
| <b>2</b>   | <b>Normative references</b> .....  | <b>1</b>    |
| <b>3</b>   | <b>Terms and definitions</b> .....   | <b>1</b>    |
| <b>4</b>   | <b>Technical procedure for standardizing a new reference method</b> .....                    | <b>3</b>    |
| 4.1  | General .....  | 3           |
| 4.2  | Technical steps .....  | 3           |
| 4.2.1  | Step 1: Method(s) selection (mandatory) .....  | 3           |
| 4.2.2  | Step 2: Method(s) optimization (optional) .....  | 4           |
| 4.2.3  | Step 3: Method(s) evaluation study (recommended) .....                                       | 4           |
| 4.2.4  | Step 4: "Real life" study (recommended) .....  | 5           |
| 4.2.5  | Step 5: Selection of one candidate reference method for further validation (mandatory) ..... | 5           |
| 4.2.6  | Step 6: Interlaboratory study (mandatory) .....  | 5           |
| <b>5</b>   | <b>Technical procedure for revising a standardized reference method</b> .....                | <b>7</b>    |
| <b>Annex A (informative) Flow chart on technical steps for the establishment or revision of a standardized reference method</b> .....                                    |  | <b>9</b>    |
| <b>Annex B (informative) Guidance on optimization studies to compare two options in the development of a new standardized reference method or for its revision</b> ..... |  | <b>10</b>   |
| <b>Bibliography</b> .....  |  | <b>13</b>   |
