## Animal feeding stuffs - Enzymatic determination of total starch content - Part 2: Method by enzymatic determination with a hexokinase system and potassium hydroxide dispersion

---

| <b>Contents</b>  |   | <b>Page</b> |
|--|---|-------------|
| Foreword .....   |   | iv          |
| 1  | Scope .....                                   | 1           |
| 2  | Normative references .....                    | 1           |
| 3  | Terms and definitions .....                   | 1           |
| 4  | Principle .....                               | 1           |
| 5  | Reagents .....                                | 1           |
| 6  | Equipment .....                               | 2           |
| 7  | Sampling .....                                | 3           |
| 8  | Preparation of the sample for testing .....   | 3           |
| 9  | Operating procedure .....                     | 3           |
| 9.1  | Test sample .....                             | 3           |
| 9.2  | Washing, dispersion and hydrolysis .....      | 3           |
| 9.3  | Determination of glucose .....                | 3           |
| 9.4  | Control of the efficiency of the enzyme ..... | 4           |
| 10   | Expression of the results .....               | 4           |
| 11   | Precision .....                               | 5           |
| 11.1   | Interlaboratory test .....                    | 5           |
| 11.2   | Repeatability .....                           | 5           |
| 11.3   | Reproducibility .....                         | 5           |
| 12   | Test report .....                             | 5           |
| Annex A (normative) Check on amyloglucosidase activity .....   |   | 6           |
| Annex B (informative) Result of the interlaboratory test ..... |   | 8           |
| Annex C (informative) Result of the washing test .....         |   | 9           |
| Bibliography .....   |   | 10          |
