European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 General control steps and prerequisites 14

5 Content of the file for the initial control 14
5.1 General 14
5.2 Administrative information 15
5.2.1 General 15
5.2.2 Presentation 15
5.3 Technical file of the reagent 16
5.3.1 Manufacture 16
5.3.2 Assessment file 17
5.4 References 19

6 Content of the file for batch-to-batch control 20
6.1 General 20
6.2 Written batch control request 20
6.3 Results of the applicant's internal quality control 20

7 Conformity certificates 20

8 Modifications of a reagent 21
8.1 Control organization and end users information 21
8.2 Management of major and minor modifications by the control organization 21

Annex A (normative) Description form and label of a reference material 22

Annex B (normative) File to be compiled by the applicant for the assessment of a reagent bya control organization 24

Annex C (normative) Declaration of interest 28

AnnexD (normative) Reagent or batch conformity certificate issued by the control organization 29

Annex E (normative) Notification of a reagent modification 30
