3.1 General 1
3.2 DNA extraction 2
3.3 DNA quantitation 2

4 General laboratory requirements 2

5 Procedure 2
5.1 Preparation of the test portion 2
5.2 DNA extraction/purification 4
5.3 Quantitation of the extracted DNA 5
5.4 Stability of extracted DNA 6

6 Interpretation 6

7 Test report 6

Annex A (informative) Methods for DNA extraction 7

Annex B (informative) Methods for the quantitation of the extracted DNA 34
