National foreword 3

National Annex NA (informative) Bibliography 4

Introduction 5

1 Scope 6

2 Normative references 7

3 Terms and definitions 7

4 Symbols and abbreviated terms 11

5 Specification of the acceleration for vehicles of category L3 with PMR > 25 12
5.1 General 12
5.2 Calculation of acceleration 12
5.3 Calculation of the target acceleration 13
5.4 Calculation of the reference acceleration 14
5.5 Partial power factor kP 14

6 Instrumentation 14
6.1 Instruments for acoustical measurement 14
6.2 Instrumentation for engine and vehicle speed measurements 15
6.3 Meteorological instrumentation 15

7 Acoustical environment, meteorological conditions and background noise 15
7.1 Test site 15
7.2 Meteorological conditions 16
7.3 Background noise 17

8 Test procedures 17
8.1 Microphone positions 17
8.2 Conditions of the vehicle 17
8.3 Operating conditions 18
8.4 Measurement readings and reported values 21
8.5 Measurement uncertainty 22

9 Test report 23

Annex A (informative) Technical background for development of vehicle noise test procedure based on in-use operation in urban conditions 24

Annex B (informative) Measurement uncertainty -- Framework for analysis according to ISO/IEC Guide 98-3 30

Annex C (informative) Flowchart of the procedure for category L3 with PMR > 25 33

Annex D (informative) Flowchart for vehicles of category L3 with PMR 25 34

Annex E (informative) Flowchart for vehicles of categories L4 and L5 35

Annex F (informative) Indoor test operation 36
