## Measurement of vibration immission - Part 1: Vibration meters - Requirements and tests

---

| Contents                                                                                                                                                       | Page      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <b>Foreword .....</b>                                                                                                                                          | <b>3</b>  |
| 1 <b>Scope .....</b>                                                                                                                                           | 4         |
| 2 <b>Normative references .....</b>                                                                                                                            | 4         |
| 3 <b>Terms and definitions .....</b>                                                                                                                           | 5         |
| 4 <b>Symbols .....</b>                                                                                                                                         | 10        |
| 5 <b>Requirements .....</b>                                                                                                                                    | 11        |
| 5.1 <b>General requirements .....</b>                                                                                                                          | 11        |
| 5.2 <b>Specific requirements .....</b>                                                                                                                         | 17        |
| 6 <b>Tests .....</b>                                                                                                                                           | 23        |
| 6.1 <b>General .....</b>                                                                                                                                       | 23        |
| 6.2 <b>Initial type test .....</b>                                                                                                                             | 28        |
| 6.3 <b>Verification test .....</b>                                                                                                                             | 37        |
| 6.4 <b>Intermediate test .....</b>                                                                                                                             | 38        |
| 6.5 <b>Pre-measurement test .....</b>                                                                                                                          | 39        |
| 7 <b>Mechanical calibration equipment .....</b>                                                                                                                | 41        |
| 7.1 <b>General .....</b>                                                                                                                                       | 41        |
| 7.2 <b>Back-to-back calibration .....</b>                                                                                                                      | 41        |
| 7.3 <b>Calibration signals .....</b>                                                                                                                           | 41        |
| 8 <b>Electrical calibration equipment .....</b>                                                                                                                | 42        |
| 8.1 <b>General .....</b>                                                                                                                                       | 42        |
| 8.2 <b>Calibration signals .....</b>                                                                                                                           | 42        |
| 9 <b>Marking .....</b>                                                                                                                                         | 42        |
| 10 <b>Data sheet .....</b>                                                                                                                                     | 43        |
| 11 <b>Operating instructions .....</b>                                                                                                                         | 43        |
| <b>Annex A (informative) Examples of KBF signal generation .....</b>                                                                                           | <b>44</b> |
| <b>Annex B (informative) Ripple .....</b>                                                                                                                      | <b>45</b> |
| <b>Annex C (informative) Testing phase response characteristics by the tangent method .....</b>                                                                | <b>46</b> |
| <b>Annex D (informative) Method for determining the significant frequency <math>f_{mg}</math> .....</b>                                                        | <b>48</b> |
| <b>Annex E (normative) Method for assessing the effects of transient vibrations on building structures without determining the significant frequency .....</b> | <b>49</b> |
| <b>Bibliography .....</b>                                                                                                                                      | <b>52</b> |
