Foreword 3

Introduction 4

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Quantities to be measured and quantities to be determined 7

5 A-weighted sound power level determination 7

6 A-weighted emission sound pressure level measurement at the operator position 8

7 Testing and operating conditions 9

8 Information to be reported 10

9 Declaration and verification of noise emission values 13

Annex A (normative) Specific conditions for chain saws 15

Annex B (normative) Specific conditions for brush cutters and grass-trimmers 19

Annex C (normative) Specific conditions for pole-mounted powered pruners 24

Annex D (normative) Specific conditions for hedge-trimmers 28

Annex E (normative) Specific conditions for garden blower/vacuum 32

Annex F (informative) Example of water brake mounted on chain saw bar to simulate cutting 37

Annex G (informative) Summary of results from round robin tests 2007/2008 on single chain saw, brush saw and grass-trimmer 39

Annex H (informative) A-weighted sound power level declaration according to the EU Directive on noise emission in the environment by equipment for use outdoors, 2000/14/EC 40

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC 41
