

ISO 26101:2012-03 (E)

Acoustics - Test methods for the qualification of free-field environments

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Allowable deviations from inverse square law		2
5 Measurement of free sound field performance		2
5.1 Divergence loss method		2
5.2 Information to be recorded		7
5.3 Information to be reported		7
Annex A (normative) Qualification criteria and measurement requirements		9
Annex B (normative) General procedure for evaluation of sound source directionality		12
Annex C (informative) Measurement uncertainty		14
Annex D (informative) Guidelines for referring to this test method		17
Bibliography		19
