

# DIN EN ISO 10140-1:2014-09 (E)

Acoustics - Laboratory measurement of sound insulation of building elements - Part 1: Application rules for specific products (ISO 10140-1:2010 + Amd.1:2012 + Amd.2:2014)

---

| <b>Contents</b>   | <b>Page</b> |
|---|-------------|
| Introduction .....  | 6           |
| 1 Scope .....   | 8           |
| 2 Normative references .....  | 8           |
| 3 General .....   | 8           |
| 4 Structure of application rules for specific products .....  | 9           |
| Annex A (normative) Walls -- Airborne sound insulation .....  | 10          |
| Annex B (normative) Doors -- Airborne sound insulation .....  | 12          |
| Annex C (normative) Windows -- Airborne sound insulation .....                                      | 13          |
| Annex D (normative) Glazing -- Airborne sound insulation .....                                      | 15          |
| Annex E (normative) Small technical elements -- Airborne sound insulation .....                     | 18          |
| Annex F (normative) Floors -- Airborne and impact sound insulation .....                            | 22          |
| Annex G (normative) Acoustical linings -- Improvement of airborne sound insulation .....            | 23          |
| Annex H (normative) Floor coverings -- Improvement of impact sound insulation .....                 | 27          |
| Annex I (normative) Shutters -- Airborne sound insulation .....                                     | 35          |
| Annex J (normative) Joints filled with fillers or seals -- Sound reduction index .....              | 39          |
| Annex K (normative) Roofs, roof/ceiling systems, roof windows and skylights -- Rainfall sound ..... | 50          |
| Bibliography .....  | 55          |
