

DIN EN 16703:2015-12 (E)

Acoustics - Test code for drywall systems of plasterboard with steel studs - Airborne sound insulation

| Contents | | Page |
|---|--|-------------|
| European foreword | | 4 |
| Introduction | | 5 |
| 1 | Scope | 6 |
| 2 | Normative references | 6 |
| 3 | Terms and definitions | 6 |
| 4 | Test code for drywall systems of plasterboard with steel studs | 7 |
| 4.1 | Application | 7 |
| 4.2 | Testing Guidelines | 7 |
| 4.2.1 | Test element | 7 |
| 4.2.2 | Boundary and mounting conditions | 7 |
| 4.2.3 | Test report | 8 |
| 4.3 | Validation of the laboratory with two reference test partitions | 8 |
| 4.3.1 | Test elements | 8 |
| 4.3.2 | Acceptance criteria | 8 |
| 4.3.3 | Remedial investigation | 10 |
| 4.4 | Application of uncertainties | 11 |
| Annex A (normative) Reference test partition location in aperture | | 12 |
| A.1 | General | 12 |
| A.2 | Case A "Aperture without niche and one acoustic break" | 12 |
| A.3 | Case B "Aperture without niche and two acoustic breaks with Ratio 2:1" | 13 |
| A.4 | Case C "Aperture with niche and one acoustic break" | 13 |
| Annex B (normative) Reference test partition Type 1 | | 14 |
| B.1 | Description of Reference test partition Type 1 | 14 |
| B.1.1 | Single Framework, single board layer partition | 14 |
| B.2 | Installation procedure of partition Type 1 | 15 |
| B.2.1 | Installation of framework with channels and studs | 15 |
| B.2.2 | Installation of plasterboards 1st side | 16 |
| B.2.3 | Installation of insulation in cavity | 16 |
| B.2.4 | Installation of plasterboards 2nd side | 16 |
| B.2.5 | Jointing for both sides of the partition | 16 |
| Annex C (normative) Reference test partition Type 2 | | 18 |
| C.1 | Twin framework, double board layer partition | 18 |
| C.1.1 | General | 18 |
| C.1.2 | Installation of framework with channels and studs | 19 |
| C.2 | Installation of plasterboards | 20 |
| C.2.1 | General | 20 |
| C.2.2 | Plasterboard inner layer on first side | 20 |
| C.2.3 | Plasterboard outer layer on first side | 20 |
| C.3 | Installation of insulation in cavity | 21 |
| C.4 | Installation of plasterboards 2nd side - Plasterboard inner layer on second side | 21 |

| | | |
|------------------------------|---|-----------|
| C.5 | Plasterboard outer layer on second side | 21 |
| C.6 | Jointing for both sides of the partition | 21 |
| Annex D (informative) | Interlaboratory Tests performed for the development of this Test Code standard | 22 |
| Annex E (informative) | E Modulus - Control Method (static E Modulus with 3 bending points) | 24 |
| Annex F (informative) | E Modulus - Expertise Method (dynamic E Modulus) | 25 |
| Bibliography | | 27 |
