DIN EN ISO 11689:1997-03 (E)

Acoustics - Procedure for the comparison of noise emission-data for machinery and equipment (ISO 11689:1996); German version EN ISO 11689:1996

Contents

		Page
1	Scope	4
2	Normative reference	4
3	Definitions	4
4	Machine classification	5
5	Noise-emission data	5
6	Presentation of noise-emission values	6
7	Evaluation of noise-emission data	7
8	Steps to be followed when determining noise-control performance	9
9	Information to be recorded	9
10	Information to be reported	9

Annexes

A	Calculation of a linear regression	10
B	Examples of evaluation of noise-emission data	13
C	Example of the presentation of noise-emission data in accordance with this International Standard (form sheet to be copied)	16
D	Bibliography	17
