

DIN EN ISO 11689:1997-03 (E)

Acoustics - Procedure for the comparison of noise emission-data for machinery and equipment (ISO 11689:1996); German version EN ISO 11689:1996

Contents

	Page
1 Scope	4
2 Normative reference	4
3 Definitions	4
4 Machine classification	5
5 Noise-emission data	5
6 Presentation of noise-emission values	6
7 Evaluation of noise-emission data	7
8 Steps to be followed when determining noise-control performance	9
9 Information to be recorded	9
10 Information to be reported	9
 Annexes	
A Calculation of a linear regression	10
B Examples of evaluation of noise-emission data	13
C Example of the presentation of noise-emission data in accordance with this International Standard (form sheet to be copied)	16
D Bibliography	17
