ISO 12999-2:2020 (E)

Acoustics — Determination and application of measurement uncertainties in building acoustics — Part 2: Sound absorption

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 General approach

5 Standard uncertainties in one-third octave bands

6 Standard uncertainties for the practical sound absorption coefficient

7 Standard uncertainties of single number values

8 Reporting uncertainties

Page count: 8
