

# DIN ISO 10844:2024-11 (E)

## Acoustics - Specification of test tracks for measuring sound emitted by road vehicles and their tyres (ISO 10844:2021)

---

| <b>Contents</b>                                                                                                | <b>Page</b> |
|----------------------------------------------------------------------------------------------------------------|-------------|
| National foreword.....                                                                                         | 3           |
| National Annex NA (informative) Bibliography.....                                                              | 4           |
| Foreword.....                                                                                                  | 5           |
| Introduction.....                                                                                              | 6           |
| <b>1 Scope</b> .....                                                                                           | <b>7</b>    |
| <b>2 Normative references</b> .....                                                                            | <b>7</b>    |
| <b>3 Terms and definitions</b> .....                                                                           | <b>7</b>    |
| <b>4 Requirements of the test track</b> .....                                                                  | <b>9</b>    |
| 4.1 Size and geometry.....                                                                                     | 9           |
| 4.1.1 Size.....                                                                                                | 9           |
| 4.1.2 Slope and step.....                                                                                      | 10          |
| 4.2 Surface properties.....                                                                                    | 12          |
| 4.2.1 Irregularity.....                                                                                        | 12          |
| 4.2.2 Sound absorption.....                                                                                    | 12          |
| 4.2.3 Texture.....                                                                                             | 13          |
| 4.3 Material properties of the drive lane.....                                                                 | 13          |
| 4.4 Conformity tests.....                                                                                      | 15          |
| 4.5 Break-in of the test track.....                                                                            | 16          |
| 4.6 Stability with time and maintenance.....                                                                   | 16          |
| <b>5 Measurement methods and data processing</b> .....                                                         | <b>16</b>   |
| 5.1 Measurement points.....                                                                                    | 16          |
| 5.1.1 Drive lane.....                                                                                          | 16          |
| 5.1.2 Propagation area.....                                                                                    | 17          |
| 5.2 Irregularity measurement method.....                                                                       | 18          |
| 5.3 Texture measurement methods.....                                                                           | 18          |
| 5.3.1 Texture profile measurement and MPD calculations.....                                                    | 18          |
| 5.3.2 Texture skewness and shape factor (g-factor) calculations (optional).....                                | 19          |
| 5.3.3 Texture spectrum calculations (optional).....                                                            | 19          |
| 5.4 Sound absorption measurement method.....                                                                   | 19          |
| 5.5 Slope and step measurement methods.....                                                                    | 20          |
| 5.5.1 Gradient measurement.....                                                                                | 20          |
| 5.5.2 Cross fall measurement.....                                                                              | 20          |
| 5.5.3 Step measurement.....                                                                                    | 21          |
| 5.6 Aggregate grading measurement method.....                                                                  | 21          |
| 5.7 Bitumen modification elastic material measurement method.....                                              | 21          |
| 5.8 Surface course thickness measurement method.....                                                           | 21          |
| <b>6 Conformity report</b> .....                                                                               | <b>21</b>   |
| <b>7 Summary of improvements on the 2014 edition</b> .....                                                     | <b>23</b>   |
| <b>Annex A (informative) Maintenance and stability of acoustic performance of test surface over time</b> ..... | <b>24</b>   |
| <b>Annex B (informative) Method of calculation of shape factor (g-factor)</b> .....                            | <b>25</b>   |
| <b>Annex C (informative) Improvements to this version compared to ISO 10844:2014</b> .....                     | <b>29</b>   |
| <b>Bibliography</b> .....                                                                                      | <b>30</b>   |
