

ISO 17934:2026-03 (E)

Condition monitoring and diagnostics of machines - Reciprocating compressors

Contents

Page

Foreword.....	iv
Introduction.....	v
1 Scope.....	1
2 Normative references.....	2
3 Terms and definitions.....	2
4 Symbols and abbreviated terms.....	5
5 Initial CM preparations.....	10
6 Reciprocating compressors failure modes.....	11
6.1 General.....	11
6.2 Reciprocating compressor components.....	11
6.3 Potential failure mode identification and prioritization.....	11
7 Monitoring and diagnostic techniques.....	13
7.1 General.....	13
7.2 CM technique overview.....	13
7.3 Primary descriptors and plots.....	14
7.4 Correlation measurements.....	16
7.5 Adaptive monitoring strategy.....	18
7.6 Monitoring and diagnostic technique selection and evaluation.....	18
7.7 Automatic diagnostic decision support and artificial intelligence (AI).....	19
8 Implementing, operating and maintaining a monitoring solution.....	19
8.1 General.....	19
8.2 Sensor selection and installation.....	20
8.3 CMS system evaluation and selection.....	21
8.4 Monitoring system daily operation.....	22
Annex A (informative) Machine components and failure modes.....	24
Annex B (informative) Sensors and monitoring techniques for reciprocating compressor components and failure modes.....	28
Annex C (informative) Primary monitoring and diagnostic techniques.....	30
Annex D (informative) Monitoring technique evaluation.....	84
Bibliography.....	86
