ISO 3095 :2005-08 (E)

Railway applications_- Acoustics_- Measurement of noise emitted by railbound vehicles

Contents

page

Foreword ..... **v**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Measurement quantities **8**

5 Instrumentation **8**

6 Test conditions **9**

7 Test procedure **12**

8 Test report **14**

Annex A (normative) **Rail roughness measurement specifications** **16**

Annex B (normative) **Additional measurements** **22**

Annex C (informative) **Procedure for determining the rail roughness limit spectrum** **25**

Annex D (informative) **Major influence parameters on track noise including track dynamics** **30**

Bibliography **31**
