

DIN EN 12077-2:2008-12 (E)

Cranes safety - Requirements for health and safety - Part 2: Limiting and indicating devices (includes Amendment A1:2008)

Contents	Page
Foreword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Definitions	5
4 List of significant hazards	7
Table 1 -- List of significant hazards and associated requirements	8
Table 1 -- List of significant hazards and associated requirements (Concluded)	9
5 Safety requirements and/or measures	10
5.1 General	10
5.2 Limiters and indicators	10
5.3 Rated capacity limiters and indicators - General requirements	10
5.4 Rated capacity limiters - Specific requirements	11
5.5 Rated capacity indicators - Specific requirements	12
5.6 Motion and performance limiters	13
5.7 Indicators	14
6 Verification of the safety requirements and/or measures	15
Table 2 -- Methods to be used to verify conformity with the safety requirements and/or measured ...	16
Table 2 -- Methods to be used to verify conformity with the safety requirements and/or measured (Concluded)	17
7 Information for use	18
7.1 Instructions shall be provided for the protection of limiters and indicators when arc welding is carried out on the crane	18
7.2 Instructions shall be provided for the actions to be taken to protect the limiter/indicator when overload testing the crane	18
7.3 Warnings shall be provided to prevent excessive paint from being applied to critical areas	18
Annex ZA (informative) !!!!Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC	19
Annex ZB (informative) !!!!Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC	20
