DIN 32711-2:2009-03 (E)

Shaft-to-hub connection - P3G polygon profile - Part 2: Calculation and dimensioning

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Calculation principles 4
3.1 Symbols 4
3.2 Calculating mechanical properties and dimensions 4
3.2.1 General 4
3.2.2 Shaft stresses 5
3.2.3 Surface pressure in the connection 5
3.2.4 Tensile stress in the hub 6
3.3 Recommended parameters for calculating dimensions 6

Annex A (informative) Examples of calculations 7

Figures Figure 1 - Minimum hub wall thickness of s P3G polygon hub 6
