Foreword ..... iv

Introduction ..... v

1 Scope ..... 1

2 Normative references ..... 1

3 Terms and definitions ..... 1

4 Units of measurement and symbols ..... 2

5 Reliability concept ..... 2

6 Means for determining reliability ..... 3

7 Procedures for analysing a design concept ..... 5

8 Procedures for laboratory testing to failure or suspension ..... 8

9 Procedures for collecting field data ..... 9

10 Procedure for a substantiation test ..... 10

Annex A (informative) Example calculation for analysing a design concept ..... 13

Annex B (informative) Calculation examples for laboratory test to failure data analysis ..... 19

Annex C (informative) Example calculation for collecting field data ..... 27

Annex D (informative) Equation development and example calculations for substantiation testing ..... 33

Annex E (informative) Reference material ..... 38
