Foreword 3

Introduction 4

1 Scope 4

2 Normative references 5

3 Definitions 6

4 List of hazards 11

5 Safety requirements and/or measures 15
5.1 Structural and stability calculations 15
5.2 General machine requirements, base frame, chassis and mast 25
5.3 Work platform 28
5.4 Drive systems for elevation 31
5.5 Means to prevent the work platform from falling with overspeed 33
5.6 Means for emergency lowering and raising the work platform 35
5.7 Overload/moment device 36
5.8 Electrical systems 38
5.9 Hydraulic system 39
5.10 Special requirements for safety devices, depending on auxiliary circuits and for overload/moment devices 40
5.11 Travel limit switches 40
5.12 Controls 41

6 Verification of the safety requirements and/or measures 41
6.1 Examinations and tests for each new model of MCWP 41

7 Information for use 44
7.1 Instruction handbook 44
7.2 Marking 50

Annex A (informative) Structural calculations 52

Annex B (normative) Special requirements for multilevel work platforms 66

Annex C (normative) Requirements for electrical and electronic aspects of overload detecting devices 68

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC 71

Annex ZB (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC 72
