|--------------------|--|-------------|
| Foreword .....     |  | 4           |
| Introduction ..... |  | 5           |
| <b>1</b>           | <b>Scope .....</b>   | <b>5</b>    |
| <b>2</b>           | <b>Normative references .....</b>  | <b>6</b>    |
| <b>3</b>           | <b>Definitions .....</b>   | <b>7</b>    |
| 3.1                | Definition of terms .....  | 8           |
| 3.2                | Description of form, fill and seal machines .....                                    | 9           |
| <b>4</b>           | <b>Hazards on form, fill and seal machines .....</b>                                 | <b>34</b>   |
| 4.1                | General form, fill and seal machine hazards .....                                    | 35          |
| 4.2                | Hazards associated with a flowwrapping machine .....                                 | 37          |
| 4.3                | Hazards associated with a vertical form, fill and seal machine .....                 | 40          |
| 4.4                | Hazards associated with a pre-made bag erect, fill and close machine .....           | 42          |
| 4.5                | Hazards associated with a mandrel flexible package form, fill and seal machine ..... | 44          |
| 4.6                | Hazards associated with a horizontal end load cartoner .....                         | 45          |
| 4.7                | Hazards associated with a thermoform, fill and seal machine .....                    | 47          |
| 4.8                | Hazards associated with an auger filler .....  | 49          |
| 4.9                | Hazards associated with a volumetric cup filler .....                                | 50          |
| 4.10               | Hazards associated with a volumetric piston filler .....                             | 51          |
| 4.11               | Hazards associated with a gravimetric filler .....                                   | 52          |
| <b>5</b>           | <b>Safety requirements for form, fill and seal machines .....</b>                    | <b>54</b>   |
| 5.1                | General requirements for all form, fill and seal machines .....                      | 54          |
| 5.2                | Safety requirements for a flowwrapping machine .....                                 | 58          |
| 5.3                | Safety requirements for a vertical form, fill and seal machine .....                 | 62          |
| 5.4                | Safety requirements for a pre-made bag, erect, fill and close machine .....          | 63          |
| 5.5                | Safety requirements for a mandrel flexible package form, fill and seal machine ..... | 65          |
| 5.6                | Safety requirements for a horizontal end load cartoner .....                         | 66          |
| 5.7                | Safety requirements for a thermoform, fill and seal machine .....                    | 67          |
| 5.8                | Safety requirements for an auger filler .....  | 74          |
| 5.9                | Safety requirements for a volumetric cup filler .....                                | 75          |
| 5.10               | Safety requirements for a volumetric piston filler .....                             | 76          |
| 5.11               | Safety requirements for a gravimetric filler .....                                   | 76          |
| <b>6</b>           | <b>Verification of safety requirements .....</b>                                     | <b>77</b>   |
| 6.1                | Visual inspections with machine stopped .....  | 77          |
| 6.2                | Measurements with machine stopped .....  | 78          |
| 6.3                | Visual inspections with machine running .....  | 78          |
| 6.4                | Measurements with machine running .....  | 78          |
| 6.5                | Hazardous product and packaging material related requirements .....                  | 79          |
| 6.6                | Verification procedures .....  | 79          |
| <b>7</b>           | <b>Information for use .....</b>   | <b>81</b>   |
| 7.1                | Requirements for all form, fill and seal machines .....                              | 81          |
| 7.2                | Flowwrapping machine .....   | 82          |
| 7.3                | Vertical form, fill and seal machine .....   | 83          |
| 7.4                | Pre-made bag erect fill and close machine .....                                      | 83          |

|  |  |    |
|--|--|----|
| 7.5  | Mandrel flexible package form, fill and seal machine ..... | 83 |
| 7.6  | Horizontal end load cartoner .....                         | 83 |
| 7.7  | Thermoform, fill and seal machine .....                    | 84 |
| 7.8  | Auger filler .....   | 84 |
| 7.9  | Volumetric cup filler .....                                | 84 |
| 7.10   | Volumetric piston filler .....                             | 84 |
| 7.11   | Gravimetric filler .....                                   | 84 |
| Annex A (informative) Safety requirements .....  |  | 86 |
| Annex ZA (informative) !!!!Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC".....   |  | 87 |
| Annex ZB (informative) !!!!Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC"..... |  | 88 |
