ISO 3046-4:2009-12 (E)

Reciprocating internal combustion engines - Performance - Part 4: Speed governing

Contents

Page

Foreword iv

1 Scope 1

2 Terms and definitions, symbols and subscripts 1
2.1 Speed-governing systems 1
2.2 Speed-governing parameters 2
2.3 Steady-state engine speeds 4
2.4 Dynamic speed behaviour 6
2.5 Symbols and subscripts 7

3 Classification of speed-governing systems 8

4 Dynamic speed behaviour 8

5 Additional regulations and requirements 8

6 Technical requirements for speed-governing systems 9

7 Testing of speed-governing systems 9

8 Classification of performance and steady-state limiting values for speed-governing systems 9
