

# DIN EN 1822-5:2011-01 (E)

## High efficiency air filters (EPA, HEPA and ULPA) - Part 5: Determining the efficiency of filter elements

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | 4           |
| Introduction ..... |  | 5           |
| 1                  | Scope .....  | 6           |
| 2                  | Normative references .....   | 6           |
| 3                  | Terms and definitions .....  | 6           |
| 4                  | Description of the method .....                                    | 7           |
| 4.1                | General .....  | 7           |
| 4.2                | Measurement method using fixed sampling probe .....                | 8           |
| 4.3                | Scan method .....  | 8           |
| 4.4                | Statistical efficiency test method for EPA filters (Group E) ..... | 8           |
| 5                  | Test filter .....  | 9           |
| 6                  | Test apparatus .....   | 9           |
| 6.1                | General .....  | 9           |
| 6.2                | Test duct .....  | 9           |
| 6.2.1              | Test air conditioning .....  | 9           |
| 6.2.2              | Adjustment of the volume flow rate .....                           | 9           |
| 6.2.3              | Measurement of the volume flow rate .....                          | 9           |
| 6.2.4              | Aerosol mixing section .....                                       | 9           |
| 6.2.5              | Test filter mounting assembly .....                                | 9           |
| 6.2.6              | Measuring points for the pressure drop .....                       | 10          |
| 6.2.7              | Sampling .....   | 10          |
| 6.3                | Aerosol generation and measuring instruments .....                 | 11          |
| 6.3.1              | General .....  | 11          |
| 6.3.2              | Apparatus for testing with a monodisperse test aerosol .....       | 11          |
| 6.3.3              | Apparatus for testing with a polydisperse test aerosol .....       | 12          |
| 7                  | Conditions of the test air .....                                   | 17          |
| 8                  | Test procedure .....   | 17          |
| 8.1                | Preparatory checks .....   | 17          |
| 8.2                | Starting up the aerosol generator .....                            | 17          |
| 8.3                | Preparation of the test filter .....                               | 17          |
| 8.3.1              | Installation of the test filter .....                              | 17          |
| 8.3.2              | Flushing the test filter .....                                     | 17          |
| 8.4                | Testing .....  | 18          |
| 8.4.1              | Measuring the pressure drop .....                                  | 18          |
| 8.4.2              | Testing with a monodisperse test aerosol .....                     | 18          |
| 8.4.3              | Testing with a polydisperse test aerosol .....                     | 18          |
| 9                  | Evaluation .....   | 18          |
| 10                 | Test report .....  | 20          |
| 11                 | Maintenance and inspection of the test apparatus .....             | 22          |

|  |           |
|--|-----------|
| <b>Annex A (informative) Testing and classification method for filters with MPPS 0,1 µm (e.g. membrane medium filters) .....</b>     | <b>23</b> |
| <b>A.1 Background .....</b>  | <b>23</b> |
| <b>A.2 MPPS of filters with Membrane filter medium .....</b>   | <b>23</b> |
| <b>A.3 Penetration consistency and uniformity of Membrane filter medium .....</b>  | <b>23</b> |
| <b>A.4 Procedure for testing and classification of filters with Membrane filter media .....</b>                                      | <b>23</b> |
| <b>A.4.1 Integral Penetration .....</b>  | <b>23</b> |
| <b>A.4.2 Classification .....</b>  | <b>24</b> |
| <b>A.4.3 Local Penetration .....</b>   | <b>24</b> |
| <b>A.5 Publication of data and labelling of products with membrane filter media .....</b>  | <b>24</b> |
| <b>Annex B (normative) Testing and classification of filters using media with (charged) synthetic fibers .....</b>                   | <b>26</b> |
| <b>B.1 Background .....</b>  | <b>26</b> |
| <b>B.2 Scope .....</b>   | <b>26</b> |
| <b>B.3 Procedure for testing and classification of HEPA and ULPA filters using media with (charged) synthetic fibres .....</b>       | <b>26</b> |
| <b>B.4 Publication of data and labelling of products for HEPA and ULPA filters using media with (charged) synthetic fibres .....</b> | <b>27</b> |
| <b>Bibliography .....</b>  | <b>28</b> |
