age Foreword 4

Introduction 5

1 Scope 6

2 Normative references 7

3 Terms and definitions 8

4 List of significant hazards 12

5 Safety requirements and/or protective measures 14
5.1 General 14
5.2 Structure and structural equipment 14
5.2.1 Structures 14
5.2.2 Structural equipment 15
5.3 Driving mechanisms 16
5.3.1 General 16
5.3.2 Clutches and couplings 17
5.3.3 Service brake 17
5.3.4 Gear drives 19
5.3.5 Wheels 19
5.3.6 Switching from manual drive to power drive 19
5.4 Rope and chain drives 20
5.4.1 Rope drives 20
5.4.2 Chain drives 24
5.5 Fixed load lifting attachments 25
5.5.1 General 25
5.5.2 Hooks 25
5.5.3 Gripping devices based on adhesion 26
5.5.4 Clamps, tongs, grapplers 27
5.5.5 Traverses 27
5.5.6 Lifting forks and C-hooks 27
5.6 Safety devices 27
5.6.1 Safety device against load drop during disconnection of drive torque 27
5.6.2 Safety device to prevent overrunning of the end positions 27
5.6.3 Derailment safety device 28
5.6.4 Tipping safety device 28
5.6.5 Means for securing the crane against wind effects 28
5.6.6 Anti-collision device 29
5.7 Fluid power systems 29
5.7.1 Controls and control devices of fluid power systems 29
5.7.2 Protective measures 30
5.7.3 Overload testing 30
5.7.4 Hydraulic equipment 30
5.7.5 Pneumatic equipment 33
5.8 Corrosion protection 34
5.9 Protection against weakening of material 34
5.10 Temperature 34
5.10.1 Selection of materials considering ambient temperature 34

5.10.2 Protection against hot parts due to operation 34
5.10.3 Protection against hot parts due to ambient conditions 34

P 5.11 Measures to decrease the consequences of loss of drive power 35

5.12 Hoist mechanisms in conditions of increased severity of possible harm 35
5.12.1 Basic level of acceptable risks 35
5.12.2 Increased severity of possible harm 35
5.12.3 Measures to decrease the probability of occurrence of harm 35
5.13 Additional requirements for the transportation of hot molten metals 37
5.13.1 Decreasing the risk of dropping of load with high thermal energy 37
5.13.2 Protection against thermal radiation and ejection of hot particles 39

6 Verification of the safety requirements and/or protective measures 40

7 Information for use 44
7.1 General 44
7.2 Special requirements 45
7.3 Maintenance instructions in the case of increased severity of possible harms 45
7.4 Marking 46

Annex A (informative) Selection of a suitable set of crane standards for a given application 47

Annex B (normative) Cross list of vocabulary 48

Annex C (informative) National systems of standards for hooks and brakes 49

C.1 Hooks 49
C.2 Brakes 49

Annex D (informative) Design of rail wheel flanges 50

Annex E (normative) Gripping devices based on adhesion 52

Annex ZA (informative) !Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC" 53
