

# DIN EN 12629-6:2011-02 (E)

**Machines for the manufacture of constructional products from concrete and calcium-silicate - Safety - Part 6: Stationary and mobile equipment for the manufacture of precast reinforced products (includes Amendment A1:2010)**

---

<b>Contents</b>	<b>Page</b>
Foreword .....	3
Introduction .....	4
1 Scope .....	5
2 Normative references .....	6
3 Terms and definitions .....	7
4 !!!List of significant hazards!!!! .....	9
5 !!!Safety requirements and/or protective measures!!!! .....	17
5.1 General .....	17
5.2 !!!Layout - Circulation - Means of access!!!! .....	17
5.3 !!!Control stations (see 4.11.8 of EN ISO 12100-2:2003 and 5.3.4, 5.3.5 of "" .....	18
5.4 Emergency stops .....	18
5.5 Operating mode .....	18
5.6 Module A: Manufacturing .....	19
5.7 Module B: storage-hardening .....	19
5.8 Module C: Palletising and packaging of final products and defective products disposal station (see also 5.2 of !!!EN 12629-1:2000+A1:2010!!!!) .....	20
5.9 Noise .....	21
5.10 Summary of the safety measures given in relation to the significant hazards listed in Clause 4 .....	21
6 !!!Verification of safety requirements and/or protective measures!!!! .....	25
7 Information for use .....	26
7.1 General .....	26
7.2 Instruction handbook .....	27
7.3 Marking .....	28
Annex A (informative) Manufacturing process on machines with or without turnover .....	29
Annex B (informative) Terminology and hazard zones relative to the various types of machines .....	30
Annex ZA (informative) !!!Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC!!!! .....	34
Bibliography .....	35
