Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 7

4 List of significant hazards 8

5 Safety requirements and/or protective measures 14
5.1 General 14
5.2 Requirements for strength and stability 14
5.3 Electrotechnical equipment 28
5.4 Non-electrotechnical equipment 30
5.5 Limiting and indicating devices 36
5.6 Man-machine interface 39
5.7 Equipment for warning 42

6 Verification of safety requirements and/or protective measures 43
6.1 General 43
6.2 Types of verification 44
6.3 Fitness for purpose testing 46

7 Information for use 48
7.1 General 48
7.2 Operator's manual 49
7.3 User's manual 49
7.4 Marking of rated capacities 51

Annex A (informative) Guidance for specifying the operating duty according to EN 13001-1 53

Annex B (informative) Guidance for specifying the classes P of average number of accelerations according to EN 13001-1 62

Annex C (informative) Calculation of dynamic coefficient h(t) 63

Annex D (normative) Loads caused by skewing 66

Annex E (informative) Calculation of stall load factor for indirect acting lifting force limiter 73

Annex F (informative) Local stresses in wheel supporting flanges 75

Annex G (normative) Noise test code 80

Annex H (informative) Actions on crane supporting structures induced by cranes 89

Annex I (informative) Selection of a suitable set of crane standards for a given application 91

Annex ZA (informative) Relationship between this European standard and the Essential Requirements of EU Directive 2006/42/EC 92

Bibliography 93
