DIN EN 1012-2:2011-12 (E)

Compressors and vacuum pumps - Safety requirements - Part 2: Vacuum pumps

Contents

Page

Foreword 4

!Introduction" 4

1 Scope 5

2 Normative references 5

3 Definitions 6

4 List of Hazards Specific to Vacuum Pumps 8
4.1 Mechanical Hazards 8
4.2 Electrical Hazards 9
4.3 Thermal hazards 10
4.4 Hazards generated by noise 10
4.5 Hazards generated by radiation 10
4.6 Hazards generated by material and substances processed, used or exhausted by vacuum pumps 10
4.7 Hazards generated by neglecting ergonomic principles in design 11
4.8 Hazards caused by failure of energy supply, breaking down of parts or other functional disorders 11
4.9 Hazards caused by missing or incorrectly positioned safety related measures and means 11

5 Safety requirements and measures 11
5.1 Mechanical safety 12
5.2 Electrical Safety 13
5.3 Thermal Safety 14
5.4 Noise 15
5.5 Radiation 15
5.6 Materials and substances processed, used or exhausted by vacuum pumps 15
5.7 Ergonomic principles in machine design 16
5.8 Failure of energy supply, breaking down of machinery parts and other functional disorders 17
5.9 Safety related measures and means 17
5.10 Emergency stops 17

6 Marking, signs and warnings 18
6.1 Generally applicable 18
6.2 Data plate 18
6.3 Additional requirements 18
6.4 A vacuum pumping system shall be marked with additional information on vacuum systems 19

7 Information for use 19
7.1 General 19
7.2 Transport and Storage 20
7.3 Installation 20
7.4 Product description 21
7.5 Use 21
7.6 Maintenance 22

8 Verification 23
8.1 Noise measurement 23
8.2 Pressure test 23
8.3 Mechanical stability testing 23
8.4 Testing for leak tightness 23
8.5 Structure of verification 25

Annex A (normative) Labels, signs and warnings 26

Annex ZA (informative) !Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC" 31

Annex ZB (informative) !Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC" 32
