

DIN EN 12999:2012-03 (E)

Cranes - Loader cranes

Contents		Page
Foreword		5
Introduction		6
1	Scope	7
2	Normative references	7
3	Terms, definitions and terminology	8
3.1	Terms and definitions	8
3.2	Terminology	12
4	List of significant hazards	14
5	Safety requirements and/or safety measures	17
5.1	General	17
5.2	Structural calculation	18
5.2.1	Information to be given in the calculation	18
5.2.2	Dynamic factors	18
5.2.3	Loads and forces	20
5.2.4	Load combinations	21
5.3	Stress analysis	23
5.4	Mechanical arrangements	23
5.4.1	Stabilizers	23
5.4.2	Manual boom extensions	24
5.4.3	Securing for transport	24
5.4.4	Hoists	24
5.4.5	Load hooks	25
5.5	Hydraulic system	25
5.5.1	General	25
5.5.2	Pump	25
5.5.3	Hydraulic reservoir	25
5.5.4	Pressure limiting device	25
5.5.5	Hoses, tubes and fittings	26
5.5.6	Precautions against hydraulic line rupture	26
5.5.7	Sink rate for boom system	27
5.5.8	Slewing mechanism	27
5.6	Limiting and indicating devices	27
5.6.1	General	27
5.6.2	Rated capacity limiter	28
5.6.3	Lowering facility	29
5.6.4	Rated capacity indicators	29
5.6.5	Limiters	29
5.6.6	Operational warning	29
5.6.7	Acoustic warning	29
5.6.8	Stopping device	30
5.7	Controls	30
5.7.1	General	30
5.7.2	Symbols	30
5.7.3	Layout of bi-directional controls	31
5.7.4	Guidance for high seat controls	31
5.8	Control stations	31

5.8.1	General	31
5.8.2	Raised control stations	32
5.9	Electrical systems	34
5.9.1	General	34
5.9.2	Electromagnetic compatibility	34
5.10	Installation	34
5.10.1	General	34
5.10.2	Mounting	34
5.10.3	Stability	35
5.10.4	Noise	35
5.10.5	Vibrations	35
5.10.6	Electrical systems (installation)	35
5.10.7	Hydraulic components	36
5.10.8	Access	36
6	Verification of the safety requirements and/or measures	36
6.1	General	36
6.2	Testing and test procedures	40
6.2.1	General	40
6.2.2	Functional test	40
6.2.3	Static test	40
6.2.4	Dynamic test	41
6.2.5	Stability test	41
6.2.6	Test documentation	42
6.3	Noise emission measurement	43
7	Information for use	43
7.1	General	43
7.2	Manuals	43
7.2.1	Provision of manuals	43
7.2.2	Instructions for the installer	43
7.2.3	Operator's manual	44
7.2.4	Maintenance manual	45
7.3	Marking	46
7.3.1	General	46
7.3.2	Manufacturer's plate	46
7.3.3	Installer's plate	46
7.3.4	Load signs	46
7.3.5	Special signs on timber handling cranes	50
7.3.6	Marking of slewing centre	50
Annex A (informative)	Examples of configurations and mountings	52
A.1	Boom systems	52
A.1.1	Loader cranes with straight boom system	52
A.1.2	Loader cranes with articulated boom system	52
A.2	Examples of loader crane mountings	53
Annex B (informative)	Stress history parameter s and stress history classes S	58
Annex C (informative)	Explanatory notes	60
C.1	Rated capacity limiters	60
C.2	Timber handling cranes - Line rupture	60
C.3	Control stations	60
Annex D (informative)	Examples of dangerous movements	61
Annex E (normative)	Symbols for working and setting-up functions	62
Annex F (informative)	Control system - Preferred vertical layout for controls operated from the ground	64

Annex G (informative) Control system - Horizontal layout order	66
Annex H (informative) Control levers for high seats and remote controls	69
H.1 High seat controls	69
H.1.1 Multidirectional (joy-stick) controls	69
H.1.2 Bi-directional controls	69
H.2 Remote controls	69
Annex I (not used)	72
Annex J (normative) Cabins fitted on vehicle mounted loader cranes up to a net lifting moment of 250 kNm	73
Annex K (informative) Examples of raised control stations	76
Annex L (normative) Raised control stations - Measures regarding hand rails and hand holds, ladders and steps	78
Annex M (informative) Installation of a loader crane on a vehicle	82
M.1 General	82
M.2 Installation: minimum data	82
M.2.1 Crane dimensions in transport position: data	82
M.2.2 Crane data (see Figure M.2)	83
M.2.3 Mounting data	83
M.2.4 Power requirements	83
M.2.5 Stability calculations: data	83
M.3 Power take off (PTO) and pump displacement	84
M.4 Calculation method for determination of sub-frame dimensions	85
M.4.1 General considerations	85
M.4.2 Stresses	85
M.4.3 Material and limit states	86
M.4.4 Symbols and equations	86
Annex N (informative) Selection of a suitable set of crane standards for a given application	88
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC	89
Bibliography	90
