ISO/TR 13309:1995-05 (E)

Manipulating industrial robots - Informative guide on test equipment and metrology methods of operation for robot performa nce evaluation in accordance with ISO 9283

Contents

Page

1 Scope 1

2 Major categories of Performance measuring methods 1

3 Recommended robot Performance measuring methods 1

4 Robot Performance measuring methods 2

Table 1. Measuring methods of robot Performance characteristics 15

Table 2. Typical measuring Performances of measuring methods in Table 1 16

Annex A Examples of available measuring systems/sensors 17

Annex B Addresses of measuring system/sensor manufacturers 18

Annex C Library list 19
