DIN 8743:2014-01 (E)

Packaging machines and packaging lines - Key figures to characterise operation behaviour and requirements for data collection in an acceptance test

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms, definitions and symbols 5
3.1 Terms and definitions 5
3.2 Symbols 12

4 Key figures for describing the operating behaviour of machine systems 15
4.1 General 15
4.2 Calculation bases 15
4.3 General key figures for describing the operating behaviour 16
4.4 Technical key figures for describing the operating behaviour 16

5 System acceptance 16

Annex A (normative) Time model 17

Annex B (normative) Output model 18

Annex C (normative) Minimum points to be agreed upon for the acceptance test 19

Annex D (informative) Acceptance protocol (determination of the technical efficiency in D.1 General information 21

D.2 Acceptance test documentation 23
