Foreword ... 3

Introduction ... 4

1 Scope ... 5

2 Normative references ... 5

3 Symbols, designations and units ... 5
3.1 Symbols and designations ... 5
3.2 Subscripts ... 8
3.3 Units ... 8

4 Tooth thickness ... 8

5 Normal chordal tooth thickness and height above the chords ... 8

6 Constant chord ... 10

7 Base tangent length (span measurement) ... 11
7.1 General ... 11
7.2 External gears, number of teeth spanned ... 12
7.3 Internal spur gears, number of tooth spaces spanned ... 15

8 Radial single-ball dimension ... 16

9 Radial single-cylinder dimension ... 20

10 Diametral dimension over balls ... 20

11 Diametral dimension over cylinders ... 22

12 Double-flank centre distance ... 22

13 Diameter of the overcut tip cylinder ... 23

14 Deviations, deviation coefficients and tolerances ... 23
14.1 Preliminary remarks ... 23
14.2 Tooth thickness ... 24
14.3 Chordal tooth thickness ... 25
14.4 Base tangent length (span measurement) ... 25
14.5 Radial single-ball or single-cylinder dimension ... 25
14.6 Diametral dimension over balls or cylinders ... 26
14.7 Double-flank centre distance with master gear ... 26
14.8 Tip diameter of overcut cylindrical gears ... 26
