Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Symbols and abbreviated terms 3

5 Limitations 5

6 Method of loading 5
6.1 Suspended load 5
6.2 Side load (SL) 5
6.3 Deflection criteria 6

7 Facilities, apparatus, and material 9

8 Preparation for test 9

9 Test procedure and records 10
9.1 Final test preparation 10
9.2 Zero stress condition 10
9.3 Dead load stress condition 10
9.4 Working load stress 10
9.5 Overload test condition 11

10 Stress evaluation 11
10.1 Class I -- Uniform stress areas 12
10.2 Class II -- Stress concentration areas 12
10.3 Class III -- Column buckling stress areas 12
10.4 Class IV -- Local plate buckling areas 13

Annex A (normative) Strength of materials 14

Annex B (normative) Column buckling stress 17

Annex C (normative) Test conditions and strength margins 24

Annex D (informative) Report format 33

Annex E (informative) Typical crane examples 35
