Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Performance requirements 2
4.1 General 2
4.2 Working pressure and temperature 2
4.3 Flow rate and pressure drop 2
4.4 Connection of the coupling with a coupling counterpart 2
4.5 Burst and cyclic endurance (impulse) test pressures 3
4.6 Test requirements 3

5 Design 3
5.1 Basic dimensions 3
5.2 Diagnostic coupling with a stud end ISO 6149-2, M14 × 1,5 5
5.3 Diagnostic coupling with a stud end ISO 9974-2, M14 × 1,5 5
5.4 Diagnostic coupling with a stud end ISO 1179-2, G1/4 5
5.5 Diagnostic coupling with a stud end ISO 11926-2, 7/16-20 UNF 6

6 Manufacture 6
6.1 Construction 6
6.2 Workmanship 6
6.3 Finish 7

7 Designation of couplings 7

8 Marking 7

Annex A (informative) Other hydraulic connection types suitable for diagnostic couplings 8

Bibliography 9
