## Cranes - Classification - Part 1: General

---

| <b>Contents</b>              |  | <b>Page</b> |
|------------------------------|--|-------------|
| Foreword .....               |  | iv          |
| Introduction .....           |  | v           |
| <b>1</b>                     | <b>Scope .....</b>   | <b>1</b>    |
| <b>2</b>                     | <b>Normative references .....</b>                                  | <b>1</b>    |
| <b>3</b>                     | <b>Definitions .....</b>   | <b>1</b>    |
| <b>4</b>                     | <b>Symbols .....</b>   | <b>1</b>    |
| <b>5</b>                     | <b>Use of classification .....</b>                                 | <b>2</b>    |
| <b>5.1</b>                   | <b>General .....</b>   | <b>2</b>    |
| <b>5.2</b>                   | <b>Use of classification for commercial specification .....</b>    | <b>2</b>    |
| <b>5.3</b>                   | <b>Use of classification in the design .....</b>                   | <b>2</b>    |
| <b>6</b>                     | <b>Classification of crane duty for the crane as a whole .....</b> | <b>2</b>    |
| <b>6.1</b>                   | <b>General .....</b>   | <b>2</b>    |
| <b>6.2</b>                   | <b>Total number of crane working cycles .....</b>                  | <b>2</b>    |
| <b>6.3</b>                   | <b>State of loading .....</b>                                      | <b>3</b>    |
| <b>6.4</b>                   | <b>Group classification .....</b>                                  | <b>4</b>    |
| <b>6.5</b>                   | <b>Average displacements .....</b>                                 | <b>5</b>    |
| <b>6.5.1</b>                 | <b>General .....</b>   | <b>5</b>    |
| <b>6.5.2</b>                 | <b>Average linear displacements .....</b>                          | <b>7</b>    |
| <b>6.5.3</b>                 | <b>Average angular displacements .....</b>                         | <b>7</b>    |
| <b>7</b>                     | <b>Classification of components and mechanisms .....</b>           | <b>8</b>    |
| <b>7.1</b>                   | <b>General .....</b>   | <b>8</b>    |
| <b>7.2</b>                   | <b>Total number of component working cycles .....</b>              | <b>8</b>    |
| <b>7.3</b>                   | <b>State of loading .....</b>                                      | <b>8</b>    |
| <b>7.4</b>                   | <b>Group classification .....</b>                                  | <b>9</b>    |
| <b>7.5</b>                   | <b>Average displacements .....</b>                                 | <b>9</b>    |
| <b>7.6</b>                   | <b>Accelerations per movement .....</b>                            | <b>9</b>    |
| <b>7.7</b>                   | <b>Stress histories .....</b>                                      | <b>10</b>   |
| <b>Annex A (informative)</b> | <b>Examples for average displacements .....</b>                    | <b>11</b>   |
| <b>Annex B (informative)</b> | <b>Guidance for the conversion of M-classes .....</b>              | <b>13</b>   |
| <b>Bibliography .....</b>    |  | <b>14</b>   |
