Earth-moving machinery - Conformity assessment and certification process

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Process 2
4.1 General 2
4.2 Characteristics of standards used for conformity assessment 2
4.2.1 Earth-moving machine (EMM) standards 2
4.2.2 Characteristics of conformity assessment standards 2
4.2.3 ISO 20474 2
4.3 Demonstrating compliance with standards 3
4.4 Certification process 3
4.4.1 Global objective for certification 3
4.4.2 Provision for third party certification 3

5 Information for conformity assessment 3
5.1 Technical construction file 3
5.2 Conformity assessment certificate 4
5.2.1 General 4
5.2.2 Use of the conformity certificate 4
5.2.3 Detailed description of the machine 4
5.2.4 Description of applicable standards and regulations 4
5.2.5 Information on responsible entity providing conformity assessment certificate 4
5.2.6 Example conformity assessment certificate 4

Annex A (informative) Example conformity assessment certificate 5
