

ISO 20401:2017-07 (E)

Pneumatic fluid power systems - Directional control valves - Specification of pin assignment for 8 mm and 12 mm diameter electrical round connectors

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Integral connectors for plug-in proximity switches		2
5 Graphical symbols		2
6 Electrical contacts (pin allocation)		2
6.1 Identification		2
6.2 Pin allocation for valves with a single solenoid		3
6.3 Pin allocation for valves with double solenoids and one connector		3
6.4 Pin allocation for valves with double solenoids and two connectors		3
Bibliography		5
