European foreword 5

1 Scope 6

2 Normative references 6

3 Terms and definitions, symbols and abbreviations 7
3.1 Terms and definitions 7
3.2 Symbols and abbreviations 8

4 General 15
4.1 Documentation 15
4.2 Materials 15
4.2.1 Grades and qualities for slewing rings 15
4.2.2 Grades and qualities for rolling bearings, except slewing rings 16
4.2.3 Materials for plain bearings 16
4.3 Bearings 17
4.3.1 General 17
4.3.2 Slewing rings 17
4.3.3 Rolling bearings 20
4.3.4 Plain bearings 21
4.4 Proofs of competence for bearings 25

5 Proof of static strength 26
5.1 General 26
5.2 Limit design stresses and forces 26
5.2.1 General 26
5.2.2 Limit design forces and stresses for slewing rings 26
5.2.3 Execution of the proof for slewing rings 40
5.2.4 Limit design forces and stresses for rolling bearings 41
5.2.5 Execution of the proof for rolling bearings 43
5.2.6 Limit design forces and stresses for plain bearings 44
5.2.7 Execution of the proof for plain bearings 49

6 Proof of endurance and fatigue strength 49
6.1 General 49
6.2 Slewing rings 49
6.2.1 Design dynamic loads and load ratings 49
6.2.2 Fatigue strength of the fixing elements 56
6.2.3 Execution of the proof for slewing rings 57
6.3 Rolling bearings 59
6.3.1 Design dynamic loads and load ratings 59
6.3.2 Execution of the proof for rolling bearings 62
6.4 Plain bearings 65
6.4.1 General 65
6.4.2 Cylindrical plain bearings 65
6.4.3 Spherical plain bearings 69
6.4.4 Execution of the proof of endurance for plain bearings 73
6.4.5 Plain bearing design life 75

7 Proof of elastic stability 75

Annex A (informative) Calculation factors and guide load ratings of slewing rings 76

A.1 Excess load factor Krep 76
A.1.1 General 76
A.1.2 Analytical method of determining Krep 77
A.2 Influence factors 78
A.2.1 Proof of static strength 78
A.2.1.1 Factor for shear in sub-hardened layer f1 78
A.2.1.2 Factor for surface hardness f3 79
A.2.2 Proof of fatigue strength: factor ff1 for sub-hardened layer 79
A.2.3 Proof of fatigue strength: Inclusion factor ff2 80
A.2.4 Proof of fatigue strength: Surface hardness factor ff3 80
A.3 Guidelines for various load ratings 81
A.3.1 General 81
A.3.2 Guide value of limit design static axial load rating C0aRd for slewing rings with ball bearings 81
A.3.3 Guide value of limit design static load ratings C0a,Rd and C0r,Rd for slewing rings with roller bearing 82
A.3.3.1 Limit design static axial load rating C0a,Rd 82
A.3.3.2 Limit design static radial load rating C0r,Rd (three-row roller bearing) 82
A.3.4 Basic dynamic axial load rating Ca of a slewing ring with ball bearings 83
A.3.4.1 Single-row with 4 contact points and double-row with 2 point contacts 83
A.3.4.2 Double-row with 4 contact points 84
A.3.5 Basic dynamic load ratings Ca and Cr of a slewing ring with roller bearings 84
A.3.5.1 Basic dynamic axial load rating Ca 84
A.3.5.2 Basic dynamic radial load rating Cr (three-row roller bearing) 85
A.4 Fixing elements: alternative calculation of the design stress Sd 85
A.4.1 Bolt prying moment Mfb 85
A.4.2 Normal design stress Sd 90
A.4.3 Calculation of the lever arm sa 90

Annex B (informative) Proof of fatigue strength of slewing ring raceway: calculation of load history parameter ssr (example) 92

B.1 General 92
B.2 Working cycles 92
B.2.1 Type of crane 92
B.2.2 Description of the sequence of movements 93
B.3 Description of the slewing ring 94
B.3.1 Type of slewing ring 94
B.3.2 Main data 95
B.4 Proof of fatigue strength 95
B.4.1 Load combinations 95
B.4.2 Dynamic axial equivalent loads Pa,i for supporting/retaining raceways 97
B.4.3 Dynamic radial equivalent loads Pr,i for radial raceway 99
B.4.4 Classification of the raceways 99
B.4.4.1 Supporting raceway 99
B.4.4.2 Retaining raceway 100
B.4.4.3 Radial raceway 101

Annex C (informative) Equivalence of proofs of fatigue strength of slewing rings and rolling bearings according to EN 13001 method and ISO 281 one 103

Annex D (informative) Selection of a suitable set of crane standards for a given application 105

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC 107
