

ISO 4411:2019-10 (E)

Hydraulic fluid power - Valves - Determination of differential pressure/flow rate characteristics

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Symbols and units	2
5	Test installations	2
5.1	Selection, calibration and installation of equipment	2
5.2	Test circuit	2
5.3	Pressure-tapping points	4
6	Test procedures	5
6.1	Measurement accuracy	5
6.2	Test fluid	5
6.3	Temperatures	5
6.4	Steady-state conditions	5
6.5	Procedure	6
6.6	Pressure differential calculation	6
6.7	Presentation of the test results	6
6.7.1	General	6
6.7.2	Presentation	6
7	Identification statement (Reference to this document)	7
Annex A (informative) Use of practical units		8
Annex B (informative) Pre-test checklist		9
Bibliography		10
