

# ISO 4411:2019-10 (E)

## Hydraulic fluid power - Valves - Determination of differential pressure/flow rate characteristics

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Symbols and units .....	2
5	Test installations .....	2
5.1	Selection, calibration and installation of equipment .....	2
5.2	Test circuit .....	2
5.3	Pressure-tapping points .....	4
6	Test procedures .....	5
6.1	Measurement accuracy .....	5
6.2	Test fluid .....	5
6.3	Temperatures .....	5
6.4	Steady-state conditions .....	5
6.5	Procedure .....	6
6.6	Pressure differential calculation .....	6
6.7	Presentation of the test results .....	6
6.7.1	General .....	6
6.7.2	Presentation .....	6
7	Identification statement (Reference to this document) .....	7
Annex A (informative) Use of practical units .....		8
Annex B (informative) Pre-test checklist .....		9
Bibliography .....		10
