

# DIN EN 16524:2021-01 (E)

## Mechanical products - Methodology for reduction of environmental impacts in product design and development

---

| <b>Contents</b>  |  | <b>Page</b> |
|--|--|-------------|
| European foreword .....  |  | 4           |
| Introduction .....   |  | 5           |
| 1  | Scope .....  | 7           |
| 2  | Normative references .....   | 7           |
| 3  | Terms and definitions .....  | 7           |
| 4  | Symbols and abbreviations .....  | 10          |
| 5  | Overview of the framework for the methodology (Preparatory step 0: strategic analysis) .         | 10          |
| 5.1  | General .....  | 10          |
| 5.2  | Preparatory step 0: strategic analysis at company level .....                                    | 11          |
| 5.2.1  | Objective .....  | 11          |
| 5.2.2  | Procedure .....  | 12          |
| 5.2.3  | Documentation of the preparatory step 0 .....  | 12          |
| 6  | Description of the methodology .....   | 12          |
| 6.1  | General .....  | 12          |
| 6.2  | Step 1: determination of the scoring of the environmental aspects of the reference product ..... | 14          |
| 6.2.1  | Objective .....  | 14          |
| 6.2.2  | Procedures .....   | 15          |
| 6.2.3  | Documentation of Step 1 .....  | 20          |
| 6.3  | Step 2: selection/ranking of design options .....  | 20          |
| 6.3.1  | Objective .....  | 20          |
| 6.3.2  | Procedure .....  | 20          |
| 6.3.3  | Documentation of Step 2 .....  | 21          |
| 6.4  | Step 3: Choice of suitable DO and EA indicators related to the reference product .....           | 21          |
| 6.4.1  | Objective .....  | 21          |
| 6.4.2  | Procedure .....  | 22          |
| 6.4.3  | Documentation of Step 3 .....  | 22          |
| 6.5  | Step 4: evaluation of the redesign using DO and EA indicators .....                              | 23          |
| 6.5.1  | Objective .....  | 23          |
| 6.5.2  | Procedure .....  | 23          |
| 6.5.3  | Documentation of Step 4 .....  | 23          |
| 6.6  | Step 5: Final assessment and consideration for future activities .....                           | 23          |
| 6.6.1  | Objective .....  | 23          |
| 6.6.2  | Procedure .....  | 24          |
| 6.6.3  | Documentation of Step 5 .....  | 24          |
| 7  | Environmental claim .....  | 24          |
| Annex A(normative) Environmental questionnaire .....   |  | 26          |
| Annex B(normative) Analysis algorithm .....  |  | 35          |
| Annex C(informative) Examples of design options for environmental improvement of the product, and associated DO indicators and EA indicators ..... |  | 40          |

|  |           |
|--|-----------|
| <b>Annex D(informative) Example of implementation of the methodology .....</b>   | <b>48</b> |
| <b>D.1 General .....</b>   | <b>48</b> |
| <b>D.2 Step 1 .....</b>  | <b>48</b> |
| <b>D.2.1 Description of the reference product and the project perimeter .....</b>                                      | <b>48</b> |
| <b>D.2.2 Bill of Materials .....</b>   | <b>48</b> |
| <b>D.2.3 Environmental questionnaire .....</b>   | <b>51</b> |
| <b>D.2.4 Inputs to the algorithm .....</b>   | <b>57</b> |
| <b>D.3 Steps 2 and 3 .....</b>   | <b>63</b> |
| <b>Annex E(informative) Background of the algorithm .....</b>  | <b>67</b> |
| <b>E.1 Construction of the algorithm .....</b>   | <b>67</b> |
| <b>E.1.1 Overview .....</b>  | <b>67</b> |
| <b>E.1.2 Rules for environmental analysis .....</b>  | <b>67</b> |
| <b>E.2 Consideration of legislation .....</b>  | <b>75</b> |
| <b>Annex F(informative) Possible use of Life Cycle Assessment (LCA) for determining the score of<br/>each EA .....</b> | <b>76</b> |
| <b>Bibliography .....</b>  | <b>85</b> |
