# DIN EN 17745:2025-11 (E)

## Agricultural and forestry machinery - Environmental requirements for granule applicator of Plant Protection Products

## Contents

Page

European foreword ....3

Introduction ....4

1 Scope ....5

2 Normative references ....5

3 Terms and definitions ....5

4 Requirements ....6
4.1 General ....6
4.2 Hoppers ....7
4.2.1 Filling opening ....7
4.2.2 Level indicator ....7
4.2.3 Lid ....7
4.2.4 Accessibility ....7
4.2.5 Emptying system ....7
4.2.6 Material output continuity ....7
4.3 Metering system ....8
4.3.1 General ....8
4.3.2 Activation system ....8
4.3.3 Flow rate setting ....8
4.4 Distribution systems, controls and regulation systems ....8
4.4.1 General ....8
4.4.2 Flow rate uniformity (only for Type A) ....8
4.4.3 Broadcast distribution (only for Type B) ....8

5 Test methods ....9
5.1 Test materials and equipment ....9
5.1.1 Materials ....9
5.1.2 Test equipment needed ....9
5.2 Verification of hopper volume and the graduation scale ....9
5.3 Residual amount in the hopper ....10
5.4 Flow rate ....10
5.5 Flow rate uniformity ....10
5.6 Material output continuity ....11
5.7 Broadcast distribution (only for Type B) ....11

6 Operator's manual ....11

Annex A (informative) Example of testing material for the tests ....13

A.1 Main features of the material ....13

Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive 2006/42/EC aimed to be covered ....14

Bibliography ....15
