Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Symbols and units 5

5 Test conditions 6

6 Test fuels 7

7 Measurement equipment and accuracy 8

8 Calibration of the opacimeter 10

9 Test run 11

10 Data evaluation and calculation 11

11 Determination of smoke 16

Annex A (normative) Test cycle for variable-speed off-road engines 20

Annex B (normative) Test cycle for constant-speed off-road engines 27

Annex C (informative) Remarks on test cycles 31

Annex D (informative) Example of calculation procedure 32
